## EXPERIENCE :

**DigiPrimaTechnologies Pvt.Ltd. | Indore, M.P**

**Software Developer | May 2024 – October 2025**

**Project: Marketplace**

**Tech Stack: Node.js, MongoDB, Stripe, JWT, SonarQube, Git, Jira**

- Developed and integrated RESTful APIs using Node.js and MongoDB, supporting core marketplace functionalities.
- Implemented secure JWT-based authentication, enabling seamless access control across multiple modules.
- Integrated Stripe for end-to-end payment processing, including API creation for transactions, billing, and payment confirmation.
- Connected and secured multiple microservices using consistent authentication patterns and middleware. Conducted static code analysis with SonarQube, identifying critical code issues and improving overall project health.
- Maintained version control and collaboration using Git, and provided regular project updates and task tracking via Jira.

**Project: Turnkey**

**Architecture: Microservices | Tools & Tech: Node.js, Swagger, SonarQube, GitHub**

- Designed and developed the Customer Services module using microservices architecture, including APIs for category and sub-category management.
- Integrated Swagger for API documentation and testing, improving developer collaboration and API clarity.
- Connected SonarQube to the GitHub repository to enable real-time code analysis and automated quality checks.
- Identified and resolved 300+ code issues using SonarQube AI analysis, successfully improving code quality from poor to A-grade rating.
- Played a key role in maintaining clean, scalable, and maintainable code by continuously monitoring code quality and refactoring based on analysis results.

---

## TECHNICAL SKILLS

**Languages:** JavaScript, C++, SQL

**Frontend:** React.js (Hands-on knowledge), HTML, CSS, Bootstrap,

**Backend:** Node.js, Express.js, RESTful API, Microservices Architecture

**Database:** MongoDB, MySQL

**Tools & Version Control:** Git, GitHub, Jira, Swagger, Postman

**Testing & Code Quality:** SonarQube, Codecy

**Other:** JWT Authentication, Stripe API Integration, Real-time Chat Application

---

## EDUCATION :

**BTech (ComputerScience and Information Technology)**

Institute Of Engineering and Science , Indore  
- 2020 – 2024

**12 th :**

Inventure Kids Academy - 04/2019 -

04/2020 **10 th :**

Inventure Kids Academy - 04/2017 – 04/2018
